

Music learning from the comfort of your own home.

In our school Music learning at Merley First School, we are very fortunate to have access to a whole host of resources and support via our subscription to the Soundstorm Music Hub and its website, Charanga. As with many other web hosts, Charanga have been able to open up this learning opportunity to pupils at home during this time of school closures.

Each pupil has been given a unique log in to be able to access the Learning from Home package at <https://soundstorm.charanga.com/>. In order to be sent your log-in details, please either email myself mrs.walker@merleyfirstschool.net or your class teacher (all email addresses can be confirmed by viewing class pages on the website) who will then send it to you by reply.

Once logged in, you will have access to the next unit of work for your yeargroup - the resources, learning ideas and tools you will need can be navigated via the launch button after clicking on the unit icon. We have also added access to the mini videos and learning tools that link to all key music vocabulary - these can be viewed and discussed at any time as stand alone clips or even alongside other music learning you may be trying with your child.

Enjoy immersing yourself in musical learning from the comfort of your own home. If you have any questions at all, please do not hesitate to contact me or your class teacher.

Keep smiling,

Mrs Walker :)
